SHIP PUBLICATIONS

1. SCOPE

This procedure provides guidance on the control of Ships Nautical and Technical Publication list.

2. CODE

ISO 9001	4.2.3
ISM	10, 11
ISO 14001	4.4.5

3. RESPONSIBILITY AND AUTHORITY

Master shall ensure that the ship's Nautical and Technical Publication Library is maintained updated. The list includes Publications which are mandatory per Regulations and others which are required by the Company.

4. NAUTICAL AND TECHNICAL PUBLICATION LIST

Fleet vessels are enrolled in **REGS4SHIPS (OneOcean) program** which contain the mandatory Maritime Regulations. The Digital Publications are on a searchable database within the program.

Provided to each vessel by REGS4SHIPS. The Regulations are kept fully updated and amended by online corrections:

- Contents of REGSHIPS are as follows:
- Flag State documentation.
- IMO Codes, Conventions, Circulars, Resolutions.
- Unified Interpretations and Forthcoming Amendments.
- ILO Protocols & Guidelines.
- EU Legislation.
- MCA and M notices.
- Miscellaneous publications (Example Code of safe working practice).
- Anti-piracy/Security related information and reports

The List of Nautical and Technical Publications are maintained on board in format as specified on the Form 5.4.0.

---	---	--

Publications other than those included under Regs4Ships will be auto supplied for New Editions by Company Appointed Suppliers as nominated for your vessel.

Nautical, Radio and Marine Publications are now available in Digital Form and accordingly this is the preferred version which is maintained. Mandatory publications accepted by Flag State in Digital Form will be maintained in Digital Form and Flag State Authorization is to be maintained on board to permit this carriage.
