Printing date 10.01.2022	Revision: 13.12.2021
1 Identification of the substance or mixture and of the supplier	
· Product identifier	
 Trade name: <u>Renolin B32 HVI</u> Product Code: F937 	
 Details of the supplier of the safety data sheet Manufacturer/Supplier: Fuchs Lubricants South Africa (PTY) LTD 7 Diesel Road, Isando 1600, Gauteng Tel: +27 11 565 9600 (Switch Board) ZA-Technical@fuchs.com 	
 Informing department: Fuchs safety department Tel: +27 011 565 9600 Fax:+27 011 392 5688 Emergency telephone number: Technical Director: Dr. Siphilisiwe Ndlovu Tel: +27 082 525 0172 	
2 Hazards identification	
 <u>Classification</u> of the substance or mixture The product is not classified, according to the Globally Harmonised System (GHS). 	
 Label elements GHS label elements Void Hazard pictograms Void Signal word Void Hazard statements Void Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. 	
3 Composition/information on ingredients	
 Chemical characterisation: Mixtures Description: Mixture containing severely refined base oils and additives. 	
 Concentration range % Void Additional information For the wording of the listed hazard phrases refer to section 16. 	
4 First aid measures	
 Description of first aid measures General information Instantly remove any clothing soiled by the product. After inhalation Supply fresh air; consult doctor in case of symptoms. After skin contact Wash with soap and water. The product is not skin irritating After eye contact Rinse opened eye for several minutes under running water. After swallowing Rinse mouth thoroughly.In case of persistent symptoms consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information of any immediate medical attention and special treatment needed No further relevant information available. 	tion available.
5 Fire-fighting measures	
 Extinguishing media Suitable extinguishing agents CO2, fire extinguishing powder or fog like water spraying. Extinguish larger fires with alcohol rewater with suitable surfactant added 	
· Special hazards arising from the substance or mixture No further relevant information avail	able. (Contd. on page 2)

Safety Data Sheet

in accordance with SANS 10234:2019

Printing date 10.01.2022

Revision: 13.12.2021 Trade name: Renolin B32 HVI (Contd. of page 1) Advice for firefighters

• Protective equipment: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

6 Accidental release measures Personal precautions, protective equipment and emergency procedures In case of spills, beware of slippery floors and surfaces. • Environmental precautions: Do not allow to enter drainage system, surface or ground water. • Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal. 7 Handling and storage Handling Precautions for safe handling Prevent formation of aerosols. Do not eat, drink or smoke when working with the product. Take usual precautions when handling mineral oil products or chemical products. Observe good industrial hygiene practices. Provide adequate ventilation. Information about protection against explosions and fires: Self-contained breathing apparatus and full protective clothing must be worn in case of fire. · Conditions for safe storage, including any incompatibilities Storage • Requirements to be met by storerooms and containers: No special requirements. • Information about storage in one common storage facility: Not required. Further information about storage conditions: None. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Control parameters Additional information: The lists that were valid during the compilation were used as basis. Exposure controls · Personal protective equipment General protective and hygienic measures The usual precautionary measures should be adhered to in handling the chemicals or the mineral oil products. • Breathing equipment: Ensure good ventilation/exhaustion at the workplace. Avoid breathing vapour/ aerosol. Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. Material of gloves Material: Nitrile butyl rubber (NBR). Avoid long-term and repeated skin contact. Suitable gloves can be recommended by the glove supplier. Penetration time of glove material Material: Nitrile butyl rubber (NBR). Avoid long-term and repeated skin contact. Suitable gloves can be recommended by the glove supplier. Use skin protection cream for preventive skin protection. Protective gloves, where permitted in acc. to safety directions. The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. · For the permanent contact gloves made of the following materials are suitable: Nitrile rubber, NBR Eye protection: Safety glasses Body protection: Protective work clothing. (Contd. on page 3)

Physical and chemical properties		
 Information on basic physical and cher General Information Appearance: 	nical properties	
Form:	Liquid	
Colour:	Light Amber	
· Smell: · Odour threshold:	Characteristic Not applicable for mixtures.	
pH-value:	Not applicable	
Change in condition		
Melting point/freezing point: Initial boiling point and boiling range	Not determined : No data available.	
Flash point:	178 °C (EN ISO 2592)	
Inflammability (solid, gaseous)	Not applicable.	
Decomposition temperature:	Not determined.	
Self-inflammability:	Value not relevant for classification	
Explosive properties:	Product is not explosive.	
Critical values for explosion: Lower: Upper:	Not determined. Not determined.	
Vapour pressure:	Not determined.	
Density at 15 °C Relative density Vapour density Evaporation rate	0.871 g/cm ³ (DIN 51 757) Not determined. Not determined. Not determined.	
Solubility in / Miscibility with Water:	Not miscible or difficult to mix	
Partition coefficient: n-octanol/water:	Not determined.	
Viscosity or Consistency-Class:		
dynamic: kinematic at 40 °C:	Not determined. 32 mm²/s (DIN 51 562)	
Solvent content (VOC):		
Organic solvents:	0.0 %	
• Other information	No further relevant information available.	
) Stability and reactivity		
 Reactivity Stable under normal use conditional stability Thermal decomposition / conditions to Thermal decomposition or combustion matches to Possibility of hazardous reactions None Conditions to avoid Avoid heat or contar Incompatible materials: No further relevant 	be avoided: ay liberate carbon oxides and other toxic gases or vapors. e under normal conditions. mination.	
Hazardous decomposition products: N	o dangerous decomposition products known	(a)

11 Toxicological information			
 Information on toxicological effects Acute toxicity 			
· Primary irritant effect: · Dermal			
Based on available data, the classification criteria are not	met.Based on available data, the classification criteria are		
not met. · Serious eye damage/irritation No irritant effect known.			
 Respiratory or skin sensitisation No sensitizing effect known. Additional toxicological information: 			
The product is not subject to classification according to th Guidelines for Preparations as issued in the latest versior	e calculation method of the General EU Classification		
When used and handled according to specifications, the p information.	product does not have any harmful effects according to our		
12 Ecological information			
 Aquatić toxicity: No data available. Persistence and degradability No further relevant inforr 	nation available		
· Behaviour in environmental systems:			
Bioaccumulative potential No further relevant information Mobility in soil No further relevant information available.			
Additional ecological information: General notes:			
German Water Endangering Class 1 (Self-assessment): slightly hazardous for water. Do not allow to reach ground water, water bodies or sewage system.			
 Results of PBT and vPvB assessment PBT: Not applicable. 			
• vPvB: Not applicable. • Other adverse effects No further relevant information av	ailable		
13 Disposal considerations			
· Waste treatment methods			
• Recommendation Smaller quantities have to be disposed in line with local le	aislation		
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.			
· Uncleaned packagings: · Recommendation:			
Dispose of small non retournable packagings according to local regulations on the disposal of packagings.			
14 Transport information			
· ADR, ADN, IMDG, IATA · UN proper shipping name	Void		
ADR, ADN, IMDG, IĂTA Transport hazard class(es)	Void		
· ADR, ADN, IMDG, IATA			
Class Packing group	Void		
· ADR, IMDG, IATA · Environmental hazards:	Void Not applicable.		
 Special precautions for user 	Not applicable.		
Transport in bulk according to Annex II of Marpol and the IBC Code	Not applicable.		
· UN "Model Regulation":	Void (Contd. on page 5)

15 Regulatory information

- · Safety, health and environmental regulations/legislation specific for the substance or mixture
- · Directive 2012/18/EU
- Named dangerous substances ANNEX I None of the ingredients is listed.
- National regulations
- German Water Hazard Class: Water Endangering Class 1 (Self-assessment): slightly hazardous for water. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

<u>16 Other information</u> The classification is in line with current EC lists. It is expanded, however, by information from technical literature and by information furnished by supplier companies. The classification results from the Conventional Method mentioned in regulation EU 1272/2008 (CLP).
