Subject	Link Good Service of <b>NZ</b> Governor Offered		No. : YEN-HM-22730-3 Date: 2018. Jan. 10
Engine Models	6EY18 (A)L 6N18 (A)L 6, 8N21 (A)L Engines Equipped with NZ61 Governor	Engine Use	Ocean-going Ship Aux. Engines
		Engine Nos.	-

The governor installed to the generator engine is the essential engine component for controlling engine speed and load follow-up.

In order to make the generator engine continue to play an important role of supplying stable power inboard the ship and to ensure reliable navigation of the ship, the governor, one of the essential engine components, needs to be maintained on a periodic basis, (every 2~3 years or 8,000 ~ 10,000 hours.)

Yanmar Engineering Co., Ltd. operates Yanmar NZ Governor Link Good Service for enabling our users to maintain the high quality governor at the optimum timing.

1	Short delivery time	Have sufficient quantities in stock and can supply up to 4 units per ship at a time. Supports to maintain the good in best timing.
2	Low price	Offered at about half the price of the new governor (¥ 220,000-/unit) (*1)
3	Quality assurance	O-rings and all other consumable items are all brand new items. In addition, the compensator, flyweight and other important parts are replaced with new items. We offer our rigid inspection after installation. Guaranteed for 6 months after shipping, (*2) Rest assured by high Yanmar quality.
4	Follow-up services	Governor replacement manual offered for use onboard the ship, (enclosed in the same packing of the link good governor.) Technical supports offered to prevent incorrect adjustments by the crew. These are available only from Yanmar.

For details of the present service, contact Yanmar Engineering Co. at your end,

\*1 The customer's governor be traded in for the link good sold by Yanmar. If the trade in of the customer's governor is not possible, the price requested by Yanmar is subject to change.

\*2 The customer, upon contracting, is requested to check carefully the scope of guaranty and the details.

\*3 Check that the Port N. punched on the name plate in front of the governor is "3".

Any governor with other numbers punched shall not be accepted.

★What is Link Governor?

The used governor is disassembled and cleaned. the expendable parts, main parts, and other worn parts are assembled by replacing them with new ones. then passed the quality check after assembly.
